

FUND OBJECTIVE

The Global X Copper Miners ETF (COPX) seeks to provide investment results that correspond generally to the price and yield performance, before fees and expenses, of the Solactive Global Copper Miners Total Return Index.

For informational purposes only. This document should be used to highlight some of the criteria to be used by index provider when publishing index constituents and is not comprehensive.

KEY FEATURES

Targeted Exposure

ETF Efficiency

SOLACTIVE GLOBAL COPPER MINERS TOTAL RETURN INDEX

SELECTION POOL

- The index is designed to track the performance of companies that have or are expected to have significant exposure to the Copper mining industry.
- Companies are only eligible for inclusion if:
 - A significant part of the company's revenues is generated in copper mining and/or closely related activities (e.g. exploration or refining of copper) and/or
 - A company is expected to generate a significant part of its revenues in copper mining and/or closely related activities in the future.
- The minimum number of constituents is 20 and the maximum number of constituents is 40.

RANKING

- Eligible companies must have:
 - Free Float Market Capitalization of \$200 million if they are not current constituents and \$100 million if they are current constituents
 - Average Daily Turnover of at least \$0.5 million over the last three months and \$0.25 million for existing constituents.
 - Listing on a regulated stock exchange in the form of shares tradable for foreign investors without restrictions.
 - Average monthly trading volume of at least 75,000 shares in each of the last six months ("Liquidity Criterion").
- Existing constituents are only excluded if they are not longer part of the top 45 ranks in the index selection pool.

WEIGHTING AT SELECTION/REBALANCING

- Index components are weighted according to their Free Float Market Capitalization:
 - Each component is subject to maximum weight of 4.75%.
 - The aggregate weight of companies that do not fulfil the Liquidity Criterion cannot exceed 10% of the index weight.

REBALANCING

- The index follows a semi-annual reconstitution and rebalancing schedule. Rebalances are made on the last trading day of April and October each year.
- The index follows a quarterly Continuous Listing Standard review. Reviews are made on the last trading day of January, April, July and October.

For more information on the Index, please visit Solactive's website.

*For the complete and current index methodology please refer to the index provider's website. This summary document is accurate as of the time of its publication and Global X does not guarantee that it is current at any point thereafter.

The selection of the index constituents and their weighting is made by the index provider at its sole discretion.

Carefully consider the fund's investment objectives, risks, and charges and expenses. This and other information can be found in the fund's full or summary prospectus, which may be obtained by visiting globalxetfs.com. Please read the prospectus carefully before investing.

Investing involves risk, including the possible loss of principal. International investments may involve risk of capital loss from unfavorable fluctuation in currency values, from differences in generally accepted accounting principles, or from economic or political instability in other nations. Emerging markets involve heightened risks related to the same factors as well as increased volatility and lower trading volume. Narrowly focused investments may be subject to higher volatility. There are additional risks associated with investing in copper and the copper mining industry. The fund is non-diversified.

Shares of ETFs are bought and sold at market price (not NAV) and are not individually redeemed from the Fund. Brokerage commissions will reduce returns. Indices are unmanaged and do not include the effect of fees, expenses or sales charges. One cannot invest directly in an index.
